

Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Tuesday 05 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Cloudy but dry for most, feeling cold.

Today:

A largely dry but cloudy day, with limited sunny spells, mostly in the afternoon. Northeastern areas may see some patchy, wintry showers. Feeling rather cold, with winds lighter than Monday but remaining brisk. Maximum temperature 4 deg C (39 deg F).

Tonight:

Remaining largely dry with patchy cloud throughout. Eastern areas may see scattered wintry showers during the early hours. Feeling cold, with clear spells bringing a risk of frost. Minimum temperature -1 deg C (30 deg F).

Wednesday:

A frosty start for some, then a largely dry but cloudy day, though eastern areas may see further patchy, wintry showers at times. Feeling cold. Maximum temperature 4 deg C (39 deg F).

Outlook for Thursday to Saturday:

Remaining largely dry with some sunny spells, but continuing to feel cold. Lingering frost, and patchy freezing fog in places, likely throughout the period.
